Dear diary...

This summer I spent my summer holidays at home with my family. We didn't go anywhere and we stayed in Apaisia village but I had a lot of fun. Every afternoon I was playing football with my friends and I visited a lot of relatives. There are a lot of fun stuff to do during the summer and this year I was happy that I spent it with my family and friends at home.

One day specifically, I was very excited because I played volleyball with my friends and then we went to the beach because it was very hot outside. In the afternoon I went for a run with my brother and at night we had a big dinner party with my family, friends and my relatives.
