Dear diary...

This summer I spent my summer holidays in a hotel in Platres called New Elvetia with my family. I also visited Prodromos mountain for camping and lastly, I went to a summer school for one month.

Platres village

We stayed in Platres for a week. I was very excited and glad we were going on these holidays because I was going to have a relaxing time with my family. When I was there I made some new friends. I also visited new and interesting places there in Platres. Fortunately, there are a lot of fun stuff to do during the summer and I am happy to say this year was one of the most memorable experiences in my life.

On Sunday

This morning I was ready to go on my trip to the hotel in Platres. I woke up at 7:15. I packed my bags. We all rushed at the door. When we went to Trimiklini village we stopped at the supermarket to get some drinks on the way there. But on the way to Platres hotel I saw my friend Ifigenia and Irini going at the mountains to have a barbeque. A couple of minutes later unfortunately we got lost but we saw a beautiful waterfall that was called Kalidonia. We finally got there. We had a lot of fun sightseeing the waterfall but we also hate to walk up the cliffs without knowing where to go so we went back to the New Elvetia hotel. One of the most interesting things I did during my summer holidays was learn sign language. It is a beautiful way to communicate and one day I want to become a sign language teacher and teach it to young children as myself.
